

Introduction

We are proud to present the Connecticut Fire Academy Fall 2002 Course Schedule. This easy to use format places all classes at your fingertips. Each course offered this Fall has a course description with all pertinent information needed to register. All other courses not being taught this Fall are also listed.

Federal Funding allows us to offer some National Fire Academy courses free of charge. This will enhance your educational experience without any additional financial liability.

Connecticut Fire Academy courses are available for delivery at individual fire departments. We offer our regular courses, as well as customized versions, that meet your individual needs. To contract any course, fill out an In-Service Training Request form located on page 13c or send a written request on department letterhead to:

**Director of Training

Apparatus Programs

AERIAL OPERATOR

This six-day course meets NFPA 1002 for the driver/operator section which addresses aerial devices. Instruction will be given on: aerial; tower ladders and articulating booms. Course content will prepare the student for the practical and written examinations for Aerial Operator certification.

This course is designed for the driver/operator of aerial equipment. The course begins with road handling and moves on to apparatus placement; mobilization and stabilization; elevation; various aerial operations and apparatus readiness.

Full protective clothing (no SCBA) is required.

Prerequisites: None

Certification Prerequisites: Applicants must be Certified Firefighter I or have been a member of a fire department on or before July 1, 1977 and must be legally licensed to drive emergency apparatus. Proof must be submitted with the Student Application located on page 13.

Class Hours: 48

FM Credit: None

EMS-I Credit: None

September 21, 22, 28, 29; October 5, 6: Weekend - Middlesex County/Cromwell

Course Number: 03080102

Municipal - \$250 Out of State - \$500

October 15, 16, 17, 22, 23, 24: Day - CFA

Course Number: 03080202

Municipal - \$250 Out of State - \$500

TACTICAL CONSIDERATIONS FOR AERIAL DEVICES

This two-day course will cover, in detail, the responsibilities of the Aerial Operator and will also explore some of the options available to the Aerial Operator in both emergency and non-emergency situations. Topics covered include: apparatus placement; stabilization practices; elevation and aerial safety. The second day of this course will include "hands-on" exercises.

Full protective clothing (no SCBA) is required.

Prerequisites: None

Class Hours: 16

FM Credit: None

EMS-I Credit: None

August 17, 18: Weekend - Newtown

Course Number: 03080106

Municipal - \$75 Out of State - \$150

Apparatus Programs

PUMP OPERATOR

This six-day course is designed to prepare the student for the practical skills and written examinations for Pump Operator certification.

Class work will include: safe driving techniques; preventive maintenance; pump operations; hydraulic calculations; water supply and apparatus systems.

The course begins inside the classroom and ends outside with pumping apparatus. The main emphasis is on "hands-on" exercises using various types of pumps, hose sizes and nozzles.

Full protective clothing (no SCBA) is required.

Prerequisites: None

Certification Prerequisites: Applicants must be Certified Firefighter I or have been a member of a fire department on or before July 1, 1977, and must be legally licensed to drive emergency apparatus. Proof must be submitted with the Student Application located on page 13.

Class Hours: 48

FM Credit: None

EMS-I Credit: None

August 10, 11, 17, 18, 24, 25: Weekend - CFA

Course Number: 03080100

Municipal - \$250 Out of State - \$500

October 1, 2, 3, 8, 9, 10: Day - Fairfield

Course Number: 03080200

Municipal - \$250 Out of State - \$500

Apparatus Programs

ADDITIONAL COURSES

In addition to the programs being delivered in the Fall 2002 Course Schedule, any course below or any variation of these courses can be contracted at any time. To contract an Apparatus course, please submit a written request on department letterhead or fill out an In-Service Training Request Form located on page 13c and send to:

Director of Training
Connecticut Fire Academy
34 Perimeter Road
Windsor Locks, CT 06096-1069

Additional Apparatus Courses are:

- ♦ 2Q Driver Training - 32 Hours
- ♦ Basic Pump Operations - 8 Hours
- ♦ Emergency Vehicle Operations - 15 Hours
 - ♦ Fire Service Hydraulics - 8 Hours
- ♦ Introduction to Tactical Considerations for Aerial Devices - 8 Hours
 - ♦ Tactical Considerations For Quint Devices - 8 Hours

Course descriptions for all of these courses can be found in the Connecticut Fire Academy Course Catalog.

EMS Programs

EMT REFRESHER

This three-day course is designed to review and refresh knowledge and skills required for Emergency Medical Technicians who are currently certified according to the latest U.S. DOT EMT-Basic National Standard Curriculum. Classroom and "hands-on" training will update the EMT on current practices and confirm skill levels. A review and renewal of Healthcare Provider CPR will be conducted in conformance with the latest JAMA standards through an approved program of the American Heart Association.

Refresher topics include: well-being of the EMT; airway management; ventilation and oxygen therapy; patient assessment; medical trauma; general pharmacology interventions; altered mental status; automated external defibrillation; infants and children; emergency childbirth; normal and abnormal deliveries; post-delivery care; body substance isolation (BSI) and M.A.S.T.

Practical laboratory sessions will include bleeding control and bandaging/splinting. Comfortable clothing is suggested for these sessions.

Additional topics include: Haz-Mat recognition; personal protection; patient handling/moving techniques; environmental injuries and the legal, ethical and psychological aspects of EMS.

Written and Practical examinations will be conducted in conformance with the policies established by the State of Connecticut Department of Public Health.

Prerequisites: Applicants must be a Certified EMT. Proof must be submitted with student application located on page 13.

Class Hours: 32

FM Credit: None

EMS-I Credit: None

September 20, 21, 22: Day/Weekend - CFA

Course Number: 03170105

Municipal - \$150 Out of State - \$300

November 15, 16, 17: Day/Weekend - CFA

Course Number: 03170205

Municipal - \$150 Out of State - \$300

EMS Programs

ADDITIONAL COURSES

In addition to the programs being delivered in the Fall 2002 Course Schedule; any course below or any variation of these courses can be contracted at any time. To contract an EMS course, please submit a written request on department letterhead or fill out an In-Service Training Request Form located on page 13c and send to:

Director of Training
Connecticut Fire Academy
34 Perimeter Road
Windsor Locks, CT 06096-1069

Additional EMS Courses are:

- ♦ Complying with Bloodborne Pathogens Standard - 4 Hours
- ♦ Incident Command System for Emergency Medical Services - 16 Hours
- ♦ Infection Control for Emergency Responders-The Supervisor's Role - 16 Hours
 - ♦ Life Star Response and Landing Protocols - 4 Hours
- ♦ Medical Response Technician Refresher (MRT-R) - 16 Hours
 - ♦ Medical Response Technician (MRT) - 56 Hours

***Course descriptions for all of these courses can be found in the
Connecticut Fire Academy Course Catalog.***

Hazardous Materials Programs

EPA 40 HOUR HAZARDOUS MATERIALS TECHNICIAN

This five-day program provides emergency response personnel the information and skills needed to recognize, evaluate and control an incident involving the release or potential release of hazardous materials at the technician level.

Participants are required to wear respiratory equipment, which precludes the wearing of eyeglasses. Individuals must meet the requirements of 29 CFR 1910.134 for respiratory protection. Anyone currently participating in a medical surveillance program shall consult a physician before attending this program.

This is an "Approved Environmental Response Training Program".

Prerequisites: None
Class Hours: 40
FM Credit: 5 Hours
EMS-I Credit: None

September 16, 17, 18, 19, 20: Day - CFA
Course Number: 03150115
Municipal - \$150 Out of State - \$300

October 19, 20, 26, 27 November 2: Weekend - Wolcott
Course Number: 03150215
Municipal - \$150 Out of State - \$300

LPG EMERGENCIES

Classroom lecture and hands-on training are included in this two-day program. The first day is spent discussing liquefied petroleum gas, formation, transportation, storage and use. The afternoon will be spent outside handling LPG leaks. The second day is spent on techniques used to control ignited leaks. Outside evolutions include: fires involving gas grills and 100 pound and larger vertical tanks.

Full protective clothing with SCBA is required for the afternoon session.

Prerequisites: None
Class Hours: 16
FM Credit: 12 Hours
EMS-I Credit: None

July 27, 28: Weekend - CFA CPAT Center
Course Number: 03000117
Municipal - \$95 Out of State - \$190

October 19, 20: Weekend - Simsbury
Course Number: 03000217
Municipal - \$95 Out of State - \$190

Hazardous Materials Programs

ADDITIONAL COURSES

In addition to the programs being delivered in the Fall 2002 Course Schedule; any course below or any variation of these courses can be contracted at any time. To contract a Hazardous Materials course, please submit a written request on department letterhead or fill out an In-Service Training Request Form located on page 13c and send to:

Director of Training
Connecticut Fire Academy
34 Perimeter Road
Windsor Locks, CT 06096-1069

Additional Hazardous Materials Courses are:

HAZARDOUS MATERIALS PROGRAMS

- ♦ Chemistry of Hazardous Materials: 96 Hours
 - ♦ Decontamination (Decon): 8 Hours
- ♦ Hazardous Materials First Responder Awareness: 8 Hours
- ♦ Hazardous Materials First Responder Operational: 32 Hours
- ♦ Hazardous Materials Operational for Emergency Medical Services: 16 Hours
 - ♦ Hazardous Materials Operational Refresher: 8 Hours
 - ♦ Hazardous Materials Technician Refresher: 16 Hours

TERRORISM PROGRAMS

- ♦ Responding to the Terrorist Threat: An Introduction: 4 Hours
- ♦ Responding to the Terrorist Threat: Managing the Incident: 8 Hours
- ♦ Emergency Response to Terrorism: Basic Concepts: 16 Hours
- ♦ Emergency Response to Terrorism: Medical Services: 16 Hours
- ♦ Emergency Response to Terrorism: Incident Commander: 16 Hours
- ♦ Emergency Response to Terrorism: Hazardous Materials: 16 Hours
- ♦ Emergency Response to Terrorism: Company Officer: 16 Hours
- ♦ Emergency Response to Terrorism: Chief Officer: 16 Hours

Connecticut Fire Academy Course Catalog.***

Firefighting Programs

ALTERNATIVE FUEL VEHICLES

Alternative Fuel Vehicles are no longer a vision of the future. Alternative Fuel Vehicles are here, on our streets, among our fleets, and around us everyday.

Up until now, many of the Alternative Fuel Vehicles on the road were part of a fleet. Whether from a municipality, a mass transit system, or a local shuttle service, the Alternative Fuel Vehicles we've seen have been part of a business organization. What's different now is that the Alternative Fuel Vehicles' market is expanding into individual ownership. Individual owners are currently driving passenger vehicles.

As the popularity of Alternative Fuel Vehicles grow, we as firefighters must acquaint ourselves with the technology of today and how it will impact our ability to deliver top quality customer service in the safest manner possible.

How will we know when we're dealing with an Alternative Fuel Vehicles? What are Alternative Fuel Vehicles? What do we need to know about Alternative Fuels and Alternative Fuel Vehicles as firefighters?

These and many other questions regarding Alternative Fuel Vehicles and Alternative Fuels will be discussed during this one-day program. At the conclusion of the program, you will have a clearer picture of what Alternative Fuel Vehicles are, how to safely operate in/around them, and identify unique features regarding Alternative Fuel Vehicles needing extrication.

Firefighting Programs

CO EMERGENCIES/CHIMNEY FIRES

The first half of this course will cover the information needed by a fire department when responding to carbon monoxide alarms and to carbon monoxide present at the fire scene.

Topics include: the identification and hazards of carbon monoxide; a description of the techniques for investigating alarms and detecting the presence of this odorless, tasteless gas.

The second half of this course is designed to instruct the proper procedures to be used at a chimney fire. This simple routine fire can become a disaster if not handled properly from the start. The "reading" of a chimney before a fire occurs will be covered in detail.

Topics covered include: construction of chimneys; why fires start; extinguishment; inspection after the fire and firefighter safety.

Firefighting Programs

FIREFIGHTER SAFETY AND SURVIVAL

This is an intensive two-day course on firefighter survival training. Using scenarios based on real-life incidents, this course identifies problems that were encountered and offers possible solutions for the safe and efficient removal of members in distress. Safely removing trapped firefighters from a building is a labor-intensive operation.

Subjects covered include: self-rescue procedures such as low profile ladder egress and personal bail-out procedures giving the participant options if caught in a rapidly deteriorating situation.

Full protective clothing, including SCBA with one spare cylinder, is required.

NOTICE: THE FLASHOVER SIMULATOR IS NOT PART OF THIS PROGRAM.

Prerequisites: Applicants must be Certified Firefighter I or have been a member of a fire department on or before July 1, 1977. Proof must be submitted with the Student Application located on page 13.

Class Hours: 16

October 8, 9: Day - New Haven

Course Number: 03000241

Municipal - \$110 Out of State - \$220

INTRODUCTION TO THE FIRE SERVICE

This five-day program will focus on introducing ages 14-17 youths to the fire service. Topics addressed include: discipline; introduction to the Connecticut Fire Academy; fire department organization and structure; fire behavior; woodland fires; hazardous materials awareness; fire streams; ladders and search and rescue. This program will be held in a "camp" type atmosphere simulating a firehouse environment. Each student will reside at the Connecticut Fire Academy for the duration of the course. **All meals and lodging are included in the tuition.** **Watch For Flyer.**

Full protective clothing is required for this program. This includes helmet, bunker coat, gloves, 3/4 boots or bunker pants.

Registration: July 15, 6:00 P.M.

Classes: July 16-20: Day/Weekend - CFA

Course Number: 02000526

Municipal - \$450 Out Of State - \$900

Firefighting Programs

RAPID INTERVENTION TEAMS (RIT)

This is an intensive course on fire behavior and firefighter survival training. Using scenarios based on real-life incidents, this class identifies problems that were encountered and offers possible solutions for the safe and efficient removal of members in distress. Safely removing a trapped or unconscious firefighter from a burning building is a labor-intensive operation. Methods of searching for a missing firefighter in a large open area will be covered and the participant will be able to conduct this type of search. Additionally self-rescue procedures such as low profile ladder egress; team search and personal rope bail-out procedures, giving the participant options if caught in a deteriorating situation, will be provided.

Full protective clothing, including SCBA with one spare cylinder, is required.

Prerequisites: Applicants must be Certified Firefighter I or have been a member of a fire department on or before July 1, 1977. Proof must be submitted with the Student Application located on page 13.

Municipal - \$110 Out of State - \$220

Firefighting Programs

RECRUIT FIREFIGHTER

This ten-week course will focus on developing the skills needed for a recruit firefighter to perform entry level tasks.

One of the first components of the course will be to establish in the recruit a strong desire and will for self-discipline; teamwork; company morale; orderliness and precision.

The fire department organizational structure will be defined showing the role and responsibility of the firefighter and officer in the organization.

The training for a recruit firefighter will consist of theory, backed with appropriate skills development which follow as closely as possible to the new information being presented. The theory and practical skills development combination will be addressed on an incremental basis for maximum retention and skill development. This approach will provide competency in the recruit and reduce the risk of injury.

At the conclusion of this course, the recruit firefighter will be tested to the Firefighter II level and will return to his/her fire department. After local orientation, the firefighter will be able to be assigned to a firefighting company.

The course also includes: Hazardous Materials – First Responder Awareness and Operational; Physical Fitness; Confined Space Rescue; Medical Response Technician – Defibrillator (MRT-D); High Angle Rescue; ICS; Night Firefighting and all applicable OSHA standards.

All students are required to lodge at \$12.00 per night for the night portion of the course at the CFA. Full protective clothing; including SCBA with one spare cylinder, is required.

BUILDING CONSTRUCTION: COMBUSTIBLE

This two-day National Fire Academy course provides an introduction to basic construction principles and to the specific characteristics of combustible construction as it pertains to the fire service.

The primary emphasis of this course is to improve the firefighter's ability to ensure personal safety by recognizing common causes and indicators of failure or other hazards related to building construction.

An understanding of the course material will improve operational effectiveness as the firefighter will be able to better predict the overall reaction of a building to fire conditions. **Federal funding allows this course to be tuition free.**

EXECUTIVE SKILLS SERIES: INFLUENCING

This course is offered to Chief Officers only!

The objective of this National Fire Academy course is to enable the student to design and implement an influence plan. Influencing is considered a critical leadership skill, particularly at the executive level. This course will examine how leaders successfully influence others to accomplish common goals. Formally planning to influence others will be a primary discussion area within the course. Case studies of executives influencing others will be analyzed to illustrate the challenges and opportunities associated with complex situations in the public sector. **Federal funding allows this course to be tuition free.**

INCIDENT COMMAND SYSTEM “ICS”

This two-day National Fire Academy course is designed to provide fire officers and managers the information needed to use and implement the Incident Command System (ICS).

This course is designed to meet the needs of company officers and managers who have responsibilities for the use, deployment and implementation of the Incident Command System as well as for those who function within a departmental Incident Command System.

Course topics include: the needs of the incident manager; the structure and expandability of ICS and the command skills needed by departmental officers to effectively use ICS guidelines.

Scenario practice on the application of ICS provides guidelines and resource information for setting up and implementing a departmental Incident Command System. **Federal funding allows this course to be tuition free.**

Prerequisites: None
Class Hours: 16
FM Credit: 12 Hours
EMS-I Credit: None

November 23, 24: Weekend - Wolcott
Course Number: 03060103
Municipal - FREE Out of State - FREE

Fire Officer Programs

INCIDENT SAFETY OFFICER

This two-day National Fire Academy course examines the Safety Officer's role at emergency response situations. Course content will focus specifically on the safety officer's role within the Incident Command System.

Upon completion of this course, the participant will be able to identify and analyze safety concerns as they relate to all-hazards scene evaluation and will be able to communicate recommended solutions to the command authority. **Federal funding allows this course to be tuition free.**

Students will receive a NFA Certificate as well as a CFA Course Completion Certificate.

Prerequisites: None
Class Hours: 16
FM Credit: None
EMS-I Credit: 3 Hours

November 16, 17: Weekend - Jewett City
Course Number: 03100129
Municipal - FREE Out of State - FREE

MANAGING COMPANY TACTICAL OPERATIONS: TACTICS (MCTO-T)

The objective of this National Fire Academy course is to provide the company officer or senior firefighter acting in the role of company officer, with the management knowledge and skills to utilize available resources effectively in order to accomplish assigned tactics at a structural fire emergency. MCTO: Tactics is the third in the MCTO series designed to develop the company officer's supervisory and management capabilities in structural fire operations. Key content includes the topic areas of rescue and ventilation; confinement and extinguishment; water supply; exposures and defensive operations; salvage; overhaul and support. This course concludes with a major fire simulation activity. **Federal funding allows this course to be tuition free.**

EMS- I Credit: None

September 24, 25: Day - Branford
Course Number: 03100114
Municipal - FREE Out of State - FREE

Fire Officer Programs

ORGANIZATIONAL ADMINISTRATION (FIRE OFFICER III)

Organizational Administration is a non-traditional course offered to individuals currently holding or aspiring to the rank of shift commander or chief officer. It is designed to enhance the skills of the chief officer by providing a group of peers with a progressive learning environment.

This semi-independent study course includes a balance of regularly scheduled peer group discussion sessions and development of individual projects. Areas covered in the discussions and projects will include human resource management; community relations; administration; inspection and investigation; emergency services delivery and safety.

Areas specifically covered will include: personnel assignments; hiring and promotional procedures; professional development; community awareness programs; budget management; record keeping systems; pre-incident planning; public education planning; multi-agency incident planning and accident and injury protection. A mentor will be provided to the participants for discussion and guideline purposes.

Projects need not necessarily be created especially for this course. Projects previously prepared by the participant may be submitted. As such, credit for life experiences will be considered.

There is no final examination connected with this course. Instead, each candidate will present their project portfolio to an oral examination panel consisting of Connecticut Fire Service leaders.

The reference book used for this course will be the current edition of the Fire Chief's Handbook.

Prerequisites: Preference will be given to those currently serving as a shift commander, chief officer or those having at least three years of company officer experience.

Certification Prerequisites: Applicants must be Certified Fire Officer II and Certified Fire Service Instructor II.

Class Hours: It is expected that approximately 40 hours of discussion group time will be required in addition to project preparation and presentation time.

Public Education Programs

PUBLIC FIRE AND LIFE SAFETY EDUCATOR I

This is an entry-level course that will prepare anyone who performs public education duties to present existing programs to all audiences. The course addresses fire prevention activities; the major causes of unintentional injury; characteristics of learning; evaluation of lesson plans; presentation methods; effective usage of audiovisual aids; successfully dealing with the media and record keeping. This four-day course meets the requirements of NFPA 1035, "Professional Qualifications for Public Fire and Life Safety Educator I."

Prerequisites: None

Class Hours: 32

FM Credit: 24 Hours

EMS-I Credit: None

November 2, 3, 9, 16: Weekend - CFA

Course Number: 03160100

Municipal - \$140 Out of State - \$280

Public Education Programs

ADDITIONAL COURSES

In addition to the programs being delivered in the Fall 2002 Course Schedule, any course below, or any variation of these courses can be contracted at any time. To contract a Public Education course, please submit a written request on department letterhead or fill out an In-Service Training Request Form located on page 13c and send to:

Director of Training
Connecticut Fire Academy
34 Perimeter Road
Windsor Locks, CT 06096-1069

Additional Public Education Courses are:

- ♦ Firehawk Companion Program - 16 Hours
- ♦ Public Information Officer - 8 Hours

Course descriptions for all of these courses can be found in the Connecticut Fire Academy Course Catalog.

Rescue Programs

ADVANCED ROPE RESCUE

The goal of this three-day course is to teach the rescue technician advanced rope tactics including advanced anchoring systems; ascending techniques with mechanical ascenders and prusik loops; lowering systems and mechanical advantage vertical hauling systems, including the 2:1, 3:1, 1 or "Z" rig, and 4:1 systems. This rope course is the second of a series of courses designed to improve the firefighters working knowledge of rope system management and techniques.

Students are required to bring their own helmet, gloves, and hard sole boots to this course.

Prerequisites: Applicants must have completed Basic Rope Rescue. Proof must be submitted with the Student Application located on page 13.

Class Hours: 24

FM Credit: None

EMS-I Credit: None

September 21, 22, 28: Weekend - CFA

Course Number: 03000143

Municipal - \$160 Out of State - \$320

ADVANCED VEHICLE RESCUE

This two-day program is designed to provide the experienced student with realistic scenarios involving different problematic extrications. The objectives of this class are to provide the student with a series of complex vehicle rescue situations that will allow them to use an incident management system along with contemporary extrication and stabilization techniques, as instruction on these topics is limited. Vehicles will be situated in compromising positions to provide the students with challenging scenarios. Students must have a working knowledge of vehicle extrication tools and techniques.

Full protective clothing (no SCBA) is required.

Prerequisites: Applicants should have a working knowledge of vehicle extrication tools and techniques. Applicants must have completed Basic Vehicle Rescue. Proof must be submitted with the Student Application located on page 13.

Class Hours: 16

FM Credit: None

EMS-I Credit: None

September 28, 29: Weekend - Willimantic

Course Number: 03000137

Municipal - \$150 Out of State - \$300

Rescue Programs

BASIC ROPE RESCUE

This two-day course is a basic overview of rope rescue equipment and techniques. Topics include: equipment and use; basic rigging; anchoring and anchoring systems; rappelling using the figure 8 plate; belay techniques; victim pick-offs and safety. There will also be an overview of NFPA Standard 1983.

Students are required to bring their own helmet, gloves, and hard sole boots to this course.

Prerequisites: None

Class Hours: 16

FM Credit: None

EMS-I Credit: None

August 24, 25: Weekend - Wallingford

Course Number: 03000129

Municipal - \$100 Out of State - \$200

BASIC VEHICLE RESCUE

This two-day course provides the essential knowledge and skills needed by rescue squad members.

The course focuses on methods of gaining access to the victim; disentanglement; packaging of the victim and removal from the vehicle.

Students have an opportunity to use a variety of hand tools on wrecked automobiles. Other aspects of the rescue process, including control of hazards at the accident scene will be taught.

Full protective clothing (no SCBA) is required.

Prerequisites: None

Class Hours: 16

FM Credit: None

EMS-I Credit: None

September 7, 8: Weekend - CFA

Course Number: 03000101

Municipal - \$100 Out of State - \$200

Rescue Programs

BREACHING, BREAKING CONCRETE & STEEL

Breaching and Breaking of Concrete and Steel is a very physically demanding labor intensive program. B & B is designed to help enable firefighters to perform rescue operations in concrete and steel structures with compromised openings. Through the use of hand, gas, electric and pneumatic tools, students will perform a series of breaches through concrete walls, floors and steel objects.

Full protective clothing, including SCBA with one spare cylinder, is required.

Prerequisites: Must be Certified Firefighter II, Hazardous Materials Operational and Confined Space Rescue. Proof must be submitted with application.

Class Hours: 16

FM Credit: None

EMS-I Credit: None

September 10, 11: Day - CFA

Course Number: 03000138

Municipal - \$175 Out of State - \$350

Rescue Programs

CONFINED SPACE RESCUE

This two-day course will prepare the participants for confined space rescue situations that may include pits; wells; vats; mines and tanks. Topics will include: protection of personnel; command post operations; equipment used; atmospheric testing and the psychoanalysis of the rescuer after the incident.

Full protective clothing, including SCBA with one spare cylinder, is required.

Prerequisites: Applicants must have completed Hazardous Materials Operational. Proof must be submitted with the Student Application located on page 13.

Class Hours: 16

FM Credit: None

EMS- I Credit: None

July 24, 25: Day - Mohegan Tribal

Course Number: 03000114

Municipal - \$60 Out of State - \$120

October 5, 6: Weekend - CFA

Course Number: 03000214

Municipal - \$60 Out of State - \$120

TRENCH RESCUE

The response and operations at rescue incidents involving trench and excavation collapses require a very specialized level of training, a strong awareness of associated hazards and the need for specific equipment to conduct rescue and recovery operations.

Topics include: pre-incident operations; assessment; hazard control; support operations; gaining access; providing emergency care; disentanglement; removal; transfer and incident termination. Students will perform actual rescue/recovery scenarios.

Full protective clothing (no SCBA) is required.

Prerequisites: None

Class Hours: 16

FM Credit: None

EMS-I Credit: None

August 3, 4: Weekend - Gardner Lake

Course Number: 03000124

Municipal - \$125 Out of State - \$250

Rescue Programs

ADDITIONAL COURSES

In addition to the programs being delivered in the Fall 2002 Course Schedule, any course below or any variation of these courses can be contracted at any time. To contract a Rescue course, please submit a written request on department letterhead or fill out an In-Service Training Request Form located on page 13c and send to:

Director of Training
Connecticut Fire Academy
34 Perimeter Road
Windsor Locks, CT 06096-1069

Additional Rescue Courses are:

- ♦ Aircraft Rescue and Firefighting - 16 Hours
 - ♦ Basic Water Safety - 8 Hours
 - ♦ Cold Water Rescue - 16 Hours
- ♦ Confined Space Rescue: Refresher - 8 Hours
 - ♦ Handling Elevator Emergencies - 8 Hours
 - ♦ Low Angle Evacuation - 24 Hours
- ♦ Trench Rescue Awareness - 4 Hours
 - ♦ Extrication Tools - 16 Hours
 - ♦ Hydraulic Rescue - 16 Hours
 - ♦ Pneumatic Rescue - 8 Hours

Course descriptions for most of these courses can be found in the Connecticut Fire Academy Course Catalog.

Candidate Physical Ability Test - CPAT

The candidate physical ability test (CPAT) consists of eight separate events. The CPAT is a sequence of events requiring you to progress along a predetermined path from event to event in a continuous manner. This test was developed to allow fire departments to obtain pools of trainable candidates who are physically able to perform essential job tasks at fire scenes.

This is a pass/fail test based on a validated maximum total time of 10 minutes and 20 seconds.

In these events you wear a 50-pound vest to simulate the weight of self-contained breathing apparatus (SCBA) and fire fighter protective clothing. An additional 25 pounds, using two 12.5-pound weights that simulate a high-rise pack (hose bundle), is added to your shoulders for the stair climb event only.

Throughout all events, you must wear long pants, a provided hard hat with chin strap, provided work gloves and footwear with no open heel or toe. Watches and loose or restrictive jewelry are not permitted.

All props were designed to obtain the necessary information regarding your physical ability. The tools and equipment were chosen to provide the highest level of consistency, safety and validity in measuring your physical abilities. A schematic drawing of the CPAT is included in the orientation material. The events and distances between events are always the same.

The events are placed in a sequence that best simulates fire scene events while allowing an 85-foot walk between events. To ensure the highest level of safety and to prevent exhaustion, no running is allowed between events. This walk intentionally allows you approximately 20 seconds to recover and regroup before each event.

To receive a CPAT instruction booklet, that includes suggested preparatory exercises that are prescribed by the IAFF, call the Connecticut Fire Academy at (860) 627-6363 extension 221 or toll free, 1-800-528-3473 extension 221 and ask for Marion Lamprecht. A Test Application is provided on page 13b.

Upcoming Special Presentation

The Connecticut Fire Academy is pleased to host a special presentation by internationally renowned speaker Gordon Graham. Mr. Graham is a 27-year veteran of California Law Enforcement. Prior to his career in public safety, he received a B.A. in Business. During his tenure as a police professional, he received a teaching credential, a Master's Degree in Safety and Systems Management and a Juris Doctorate. His education as Risk Manager and experience as a practicing attorney, coupled with his extensive background in law enforcement, have allowed him to rapidly develop as a dynamic presenter with multiple areas of expertise.

Mr. Graham has centered his efforts in providing knowledge to private and public sector organizations in the areas of Risk Management, Safety Awareness, Civil Liability, Professionalism, Ethical Decision Making, and related topics. Instead of focusing solely on after incident damage control, he focuses his efforts in prevention of mistakes through his program SROVT (Solid Realistic Ongoing Verifiable Training). He teaches seminar attendees why things generally go wrong and how to prevent these unfortunate situations from occurring. He follows up his prevention efforts with a dynamic presentation on how to recognize the incidents that have a likelihood of ending up in problems in any type of profession or business. Additionally, Mr. Graham has developed the CATSINRO approach to the elimination of harassment in the workplace. Each of his presentations includes the appropriate written "rules" for the topic covered. These risk management rules allow the informed listener to make immediate, progressive changes in operations to better protect themselves and their organization.

Over the last decade, Mr. Graham has spoken to over 500,000 seminar attendees from every type of workplace imaginable. His penetrating wit, coupled with his vast knowledge in multiple disciplines, provides the enlightened listener, regardless of rank or job description, with an information packed seminar that will benefit them in current and future assignments.

This one-day program will be held on October 18 and 19, 2002. Each one-day seminar will be held in opposite ends of the state. Watch for more information on specific locations as time nears.

Special Programs

NEW ENGLAND FIRE SERVICE TRAINING WEEKEND

These programs are held at the University of Massachusetts in Amherst, MA on January 18-19, 2003 and focus on National Fire Academy classes. The weekend is sponsored by TRADE (Training And Data Exchange) Region I of the National Fire Academy. **Watch for the flyer.**

21ST ANNUAL CONNECTICUT FIRE OFFICERS WEEKEND

The annual Connecticut Fire Officers Weekend, held at the National Fire Academy in Emmitsburg, MD, will be offered on April 4-6, 2003. This year, seven classes will be taught. These two-day classes include: Command and Control of Wildland/Urban Fire Operations for Chief Officers; Courtroom Preparation and Testimony for First Responders; Executive Skills Series: Leading Diverse Communities Beyond Conflict; Incident Command for Structural Collapse Incidents; Leadership II; Training Operations in Small Departments and NFIRS 5.0.

In addition to the classes, there will be a memorial service to honor Fallen Connecticut Firefighters. **Watch for the flyer.**

FIRE AND LIFE SAFETY EDUCATOR CONFERENCE

The 10th annual Fire and Life Safety Educator Conference will be held on April 25, 2003. This conference brings together Fire and Life Safety Educators from throughout the state to get contemporary programs and exchange education information. Details will be forthcoming. **Watch for the flyer.**

JUNE FIRE SCHOOL

The annual June Fire School will be held at the Connecticut Fire Academy from June 7-13, 2003. The June Fire School is nearly a week of stimulating diverse classes designed for everyone in the fire service. **Watch for the flyer in the springtime.**

KID'S SAFETY HOUSE

The Kid's Safety House is a mobile public education tool used to teach children to crawl low in smoke and how to escape a burning building safely. To reserve the house, call the Connecticut Fire Academy at (860) 627-6363 x221 and ask for Marion Lamprecht.

RESPIRATOR FIT TESTING

The Connecticut Fire Academy has the capability to Fit Test fire departments. We will come to an individual fire department and test every individual on any type of SCBA used in your fire department. The test is qualitative and uses the Porta Count device to measure specific wearer reactions. The charge for this service is \$50.00 per hour.

To take advantage of this service, call the Program Coordinator, Sandy Brophy, at (860) 627-6363 x 411 or 1-877-528-3473 x 411 Toll Free in Connecticut.
